

Dear Hiring Manager,

I am writing to express my strong interest in the Data Analyst position at PT Enseval Medika Prima. Your commitment to providing high-quality medical products and services while driving innovation in the healthcare industry aligns perfectly with my professional aspirations and analytical expertise.

Through my internship experience, I have developed strong capabilities in data analysis and cross-functional collaboration. At Kimia Farma, I demonstrated my ability to drive business impact by designing data marts and executing ETL processes in BigQuery. I developed sales dashboards that identified opportunities to increase sales by 22% in high-rated pharmacy branches and improve transaction volume by 15% in underperforming regions. These achievements showcase my ability to translate complex data into actionable business insights.

My recent experience as a Data Analyst intern further highlights my technical proficiency in Python, SQL, and various data visualization tools. I collaborated with senior analysts and finance managers to support data preparation and validation efforts during audit processes, working extensively with tools like Snowflake, Metabase, and dbt. This experience demonstrates my ability to handle multiple tasks in a fast-paced environment while maintaining high standards of accuracy.

I am particularly drawn to the comprehensive data analysis requirements of this role, including collecting and organizing data from various sources, developing dashboards, and providing data-driven recommendations. My experience with reconciliation processes for Accounts Receivable and Accounts Payable, combined with my ability to work with cross-functional teams, positions me well to contribute effectively to your organization's data analytics initiatives.

The opportunity to join PT Enseval Medika Prima and contribute to its mission of delivering exceptional value through data-driven insights is extremely exciting. I am confident that my analytical skills, technical expertise, and commitment to excellence would make me a valuable addition to your team.

I look forward to discussing how my skills and experience align with your needs and how I can contribute to PT Enseval Medika Prima's continued success.

Best regards, Muhammad Cikal Merdeka
